

BEYOND TECHNOLOGY

Company Profile

ERP, software development, financial solutions, IT infrastructure, cyber security and artificial intelligence for Saudi Arabia and the GCC.

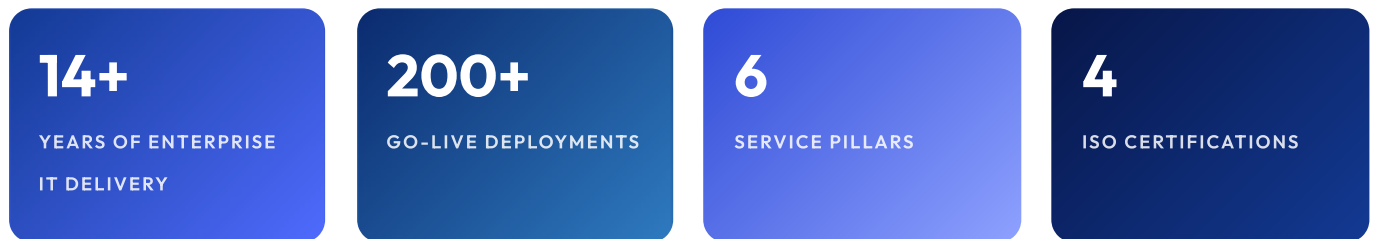

One technology partner for Saudi Arabia and the GCC

Founded in 2012, GoAgile Technologies is an IT services and technology solutions company headquartered in Riyadh, with offices in Dubai and the United States. We help businesses and public-sector organizations in Saudi Arabia modernize operations and accelerate growth with secure, scalable technology configured around each client's own processes.

Our work spans six disciplines: ERP and business applications, custom software, financial and e-invoicing solutions, IT infrastructure, cyber security and artificial intelligence. Keeping them under one roof means a single team can scope an ERP rollout, connect it to your banks and ZATCA, secure the environment it runs on and support it after go-live, without handing you between vendors.

We are an Odoo Gold Partner and also work across Microsoft Dynamics 365, Oracle, SAP, Zoho and TallyPrime, so our recommendation follows what fits your business rather than the one product we happen to sell.

Certified and registered

ISO 9001 quality management · ISO 14001 environmental management · ISO 45001 occupational health and safety · ISO 27001 information security management · D&B registered · Odoo Gold Partner

How we work

Saudi-first, compliance-aware

We design for the Kingdom's regulatory reality, from ZATCA e-invoicing to PDPL data protection, then carry the approach across the GCC.

Independent advice

We recommend the platform and scope that fit your business.

Support after go-live

Tuning, training and SLA-based support so your team keeps getting value.

One accountable team

The people who scope your project stay with it through go-live and support.

Security as part of the design

Access control, data protection and resilience are design inputs from day one.

Clear written commitments

Scope, responsibilities and timelines are agreed in writing up front.

Six disciplines, one accountable team

ERP Services

One partner across every major ERP platform used in the GCC.

Dynamics 365 Finance & Operations · Dynamics 365 Business Central · Odoo ERP · Oracle ERP · SAP ERP · TallyPrime · Zoho ERP

Software Development

Custom build, integration and platform work.

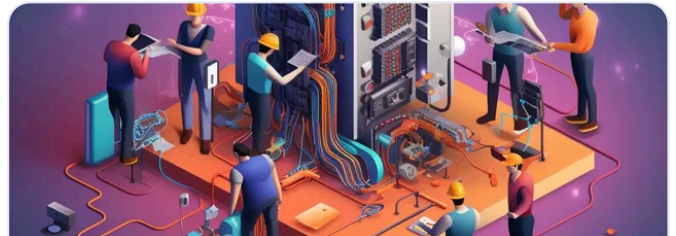

Custom Software Development · Web Application Development · Mobile App Development · Systems & API Integration · SharePoint Solutions · CRM Solutions

Financial Solutions

Compliance-grade finance technology for Saudi Arabia and the wider GCC.

e-Invoicing (ZATCA Phase 2) · Accounting & Financial Services · Payment & Banking Integrations

IT Infrastructure

Design, build and run the physical and managed layer.

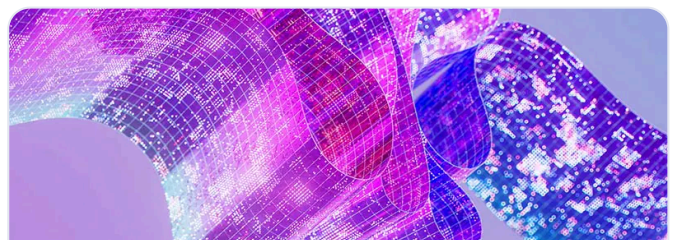

Managed IT Services · Managed NOC Services · Data Centre Design & Implementation · Structured Cabling (Copper & Fiber) · Raised Floors & Rack Systems · Access Control & Wireless Systems · Backup, Storage & Disaster Recovery · Data Management

Cyber Security

Offensive testing, managed defence, OT coverage and regulatory compliance.

Penetration Testing (VAPT) · Managed Security Services · OT & IoT Security · Compliance & Assurance

Artificial Intelligence

Practical AI built into the systems you already run.

AI Consulting & Strategy · Machine Learning & Data Science · Generative AI Solutions · Intelligent Process Automation · AI Chatbots & Virtual Assistants

Trusted by organizations across Saudi Arabia

From national institutions to growing businesses, these are some of the teams that rely on GoAgile for ERP, software, security and infrastructure.

Technology partners

We work with leading ERP, cloud, network and cyber security vendors so each solution is built on technology that suits the job.
