Saudi Credit Bureau (SIMAH)

ZATCA e-invoicing live on a six-day deadline. SIMAH needed enterprise-wide e-invoicing in line with ZATCA requirements, against an urgent six-day deadline. GoAgile built and deployed a custom platform that went live on schedule.

How we work

Saudi-first, compliance-aware
We design for the Kingdom's regulatory reality, from ZATCA e-invoicing to PDPL data protection, then carry the approach across the GCC.

One accountable team
The people who scope your project stay with it through go-live and support.

Independent advice
We recommend the platform and scope that fit your business.

Security as part of the design
Access control, data protection and resilience are design inputs from day one.

Support after go-live
Tuning, training and SLA-based support so your team keeps getting value.

Clear written commitments
Scope, responsibilities and timelines are agreed in writing up front.
