

SERVICE PROFILE

IT Infrastructure

Design, build and run the physical and managed layer.

What we deliver

01

Managed IT Services

We've run managed IT operations for GCC businesses for 14+ years, covering day-to-day support, monitoring and infrastructure management so your internal team can focus on the business.

02

Managed NOC Services

Our Network Operations Center expertise spans 14+ years of 24/7 monitoring and incident response, keeping client networks running and issues resolved before they become outages.

03

Data Centre Design & Implementation

With 14+ years designing and building data centres, we handle everything from architecture and capacity planning through physical implementation and commissioning.

04

Structured Cabling (Copper & Fiber)

Our structured cabling team brings 14+ years of copper and fiber installation experience, delivering certified, standards-compliant cabling infrastructure for enterprise environments.

05

Raised Floors & Rack Systems

We've installed raised floor systems and server racks for data centre and IT environments for 14+ years, built to the physical and cooling standards modern infrastructure demands.

06

Access Control & Wireless Systems

With 14+ years in physical and wireless security systems, we design and deploy access control and enterprise wireless networks that scale with your facility.

07

Backup, Storage & Disaster Recovery

Our team has 14+ years of experience architecting backup, storage and disaster recovery solutions, so your business can recover fast when something goes wrong.

08

Data Management

With 14+ years in data management, we help businesses structure, govern and maintain their data across systems so it stays accurate, accessible and secure.

ISO CERTIFICATIONS

Selected engagements

Prince Sultan Defense Studies & Research Center

A complete Microsoft Dynamics migration, then end-to-end infrastructure. The Center chose GoAgile to lead its migration to Microsoft Dynamics. GoAgile now manages its IT infrastructure as well.

SaudiBio

Business Central migration and infrastructure ownership. SaudiBio moved to Microsoft Dynamics 365 Business Central with GoAgile, and handed its on-premises infrastructure to the same team.
